Phileas® 15
Robustness & mobility

Autonomous Airborne Surface Disinfection (ASD) device, with unique technique of dry fog using the centrifugation technique. In compliance with the EN 17-272 norm.
Marketing Authorisation N° AMM FR-2019-0071 obtained with the O2SAFE7.4° disinfectant.

Technical characteristics

Volume treated: 10 up to 165* m³

Device’s flowrate: 1.2 L/hr

Diffusion time: 1 hr for 100 m³ at 12mL/m³ for example

Droplets size: 5 to 10 µm

Up to 5 consecutive cycles

Liquid safety notification "Liquid inlet error" if the biocide tank is empty

Minimum maintenance, robust device

Biocide tank: 2L

Power: 70W

Size (l x w x h): 441 x 294 x 278 mm

Weight: 8 kg

Material compatible with O2SAFE7.4° & Phileasafe®

EN 17-272 compliant & Marketing Authorisation

Battery operated (second battery optional) – 2hrs autonomy

Power supply: 100-240V, 50/60Hz, 1.8A

Indication: final disinfection after cleaning

Performance, Safety, Simplicity & Rapidity for the following applications:

- Wine industry
- Food industry
- Transportation
- Tanks and fermentors, EMS, bus, planes

---

* According to the calculation: tank capacity / 12mL/m³ dose (Marketing Authorisation)

** Microdrops resulting from the centrifugation technique
**Performance**

- Effectiveness confirmed by the Marketing Authorisation N°FR-2019-0071 and compliant with EN 17-272
- $4\log_{10}$, $5\log_{10}$, $6\log_{10}$ microorganism decrease depending on the requirements
- Possibility to set up to 5 successive cycles
- 2hrs battery autonomy
- **Maintenance kit** supply, for reliable disinfection cycle each time

---

**Rapidity**

- Adaptation of the protocol according to the goal and disinfection level to achieve
- Different zones & programs memorized (name, volume, biocide dose...) for fast disinfection cycle launch
- **Microdrop Technology**: dry fog nebulisation technology and optimised contact time

---

**Security**

- Remote monitoring with MyPhileas®: no contact with the biocide
- Early notification if the biocide level is missing
- Easy and automatic programming system, reducing the risk of errors by users

- **Management of accreditation level**: parameters of the zones can only be modified by the administrator (with a password)
- Compatible with O2SAFE7.4® and Phileasafe®: ≤7.4% $\text{H}_2\text{O}_2$ concentration, **safe for users and non corrosive for equipment**
- O2SAFE7.4® is 100% biodegradable, additive free and residue free

---

**Control, data analysis & traceability**

- Easy programming and total autonomy with two criteria: volume & concentration
- **Automatic calculation** of the diffusion time
- Variables and treatment area memorisation functionality
- Get a high traceability level with MyPhileas® application:
  - Available on laptop (Android & Windows) or tablet (can be provided) via Wifi connection
  - Remote control during the disinfection cycle
  - Traceability of the previous diffusion reports via MyPhileas® application
  - Information of the device’s conditions

---

**Why Devea?**

- Biodecontamination expertise with the most demanding sectors & Marketing Authorisation
- Devea Services:
  - Protocol support & personalized advice
  - Maintenance kit & step by step guided maintenance manual
  - Biological and chemical indicators provision
  - After-sale service & equipment repair diagnostic under 48hrs
- A range of products adapted for all volumes
- Design, manufacture and maintenance in France (Nantes)
