

# ReCO<sub>2</sub>ver™

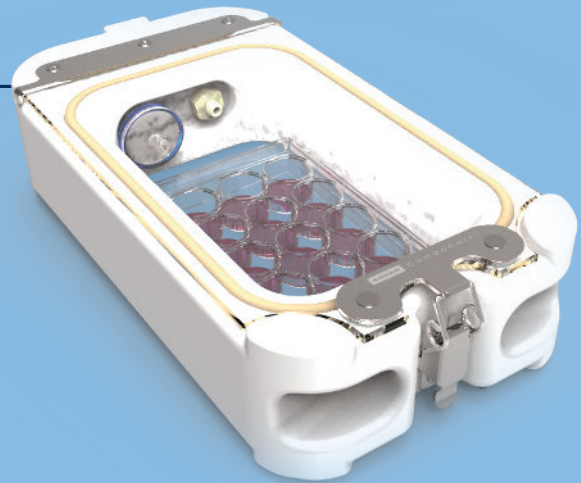

## Optimization Bundles

Baker's ReCO<sub>2</sub>ver™ Rapid Recovery Incubator combines with PhO<sub>2</sub>x Box and CondoCell® to provide constant, ideal environment for optimal cell growth. From oxygen control to portable protection for valuable cultures, ReCO<sub>2</sub>ver™ bundles enhance your research capabilities and reduce costs.

### Maximum Protection

Combine with CondoCell®, the enhanced cell culture protection system, to ensure the integrity of precious cell lines.

### Absolute Precision

Combine with PhO<sub>2</sub>x Box, the physoxia/hypoxia control chamber to provide O<sub>2</sub> control, from 0.1% to 20.0%.
